DR-3080CII

Simple and Reliable Technology

Advanced technology was meant to simplify the way people work.

DR-3080CII

Canon Advantages

- Reliable feeding of mixed-document batches
- Rugged and durable design for departmental scanning
- Handles long documents up to 39"
- Rapid duplex scanning speeds of up to 86 ipm
- Includes CapturePerfect® 3.0 and Adobe® Acrobat® 8.0 Standard
- Fast searchable, encrypted, and password-protected PDF creation

A Document Scanner That Means Business

The Canon DR-3080CII device is a durable and reliable scanner, designed for effortless operation yet powerful enough for your busy office environment. This rugged device was engineered to deliver high-quality imaging in a variety of modes and a choice of output formats—all in the blink of an eye. One of the most popular departmental scanners on the market, the DR-3080CII model easily keeps up with your daily document volumes and increases productivity, without breaking the budget.

Lean and Mean Image Processing

The DR-3080CII device incorporates a compact design and blazing scanning speeds of up to 86 images per minute.* It offers a wide choice of scanning modes, such as color, grayscale, black and white, and even advanced text enhancement for documents with text on a dark background. With a daily duty cycle of up to 4,500 documents, the DR-3080CII scanner provides robust document management and reliable paper handling.

Automated Convenience for Office Productivity

Efficient paper handling begins with the 100-sheet Automatic Document Feeder. Ideal for continuous batch scanning of mixed documents—business card to legal-sized—the Canon DR-3080CII scanner automatically adjusts for varying document sizes and thicknesses, so you won't waste valuable time presorting, rescanning, or clearing frequent paper jams. Featuring Canon's unique Folio Mode, the DR-3080CII model allows you to scan 11" x 17" documents. Efficiency is further enhanced with Color Dropout, so you can specify RGB colors for omission during scanning. Best of all, though, is that peace of mind also comes automatically, thanks to the reliable performance you've come to expect from Canon.

Connectivity is a breeze with a choice of Hi-Speed USB 2.0 or SCSI-III interfaces and ISIS® or TWAIN drivers. Each allows the DR-3080CII scanner to be used with today's most popular applications and software solutions. The scanner is bundled with Canon CapturePerfect 3.0 software and Adobe Acrobat 8.0 Standard, offering a wide range of basic and advanced scanning capabilities, including Scan-to-File and Scan-to-E-mail. Equally important, you can save files in TIFF, BMP, JPEG, and searchable PDF for easier document retrieval, or encrypted PDF for security-sensitive documents.
